

STREAM CONTRACTOR

Request for Statement of Qualifications

The URBAN DRAINAGE AND FLOOD CONTROL DISTRICT (UDFCD) is currently requesting Statements of Qualifications (SOQ) from contractors interested in performing general stream construction and stream management related projects. Two groups of contractors will be selected to be on UDFCD's Pre-qualified Stream Contractor list. The two classifications are described as follows:

Category I: General Stream Construction: Included in this classification are all aspects of heavy construction in and around drainageways. Examples of work include, but are not limited to, concrete structures, box culverts, excavation and rock placements, drop structures, boulder walls, utility relocations, and storm sewers. As part of completing General Stream Construction work, a contractor must be able to obtain and correctly administer all required permits, and have the ability to correctly install and maintain erosion control, sediment control, and water control measures. Category I work also includes all work tasks in Category II below.

Category II: General Stream Management: Included in this classification are all aspects of work related to stream not involving significant heavy construction. Examples of work include, but are not limited to, revegetation, small sediment removals, trail repairs, minor bank or channel repairs, handrail and fencing, tree thinning, and weed control. As part of completing General Stream Management work, a contractor must be able to obtain and correctly administer all required permits, and have the ability to correctly install and maintain erosion control, sediment control, and water control measures.

All stream construction projects with an estimated construction cost under \$500,000 may be awarded to any eligible Stream Contractor from either Category I: General Stream Construction or Category II: General Stream Management.

All stream construction projects with an estimated construction cost over \$500,000 and under \$1,000,000 will be awarded to a Stream Contractor from Category 1: General Stream Construction.

All stream construction projects with an estimated construction cost over \$1,000,000 will be award using a Best Value Selection between Stream Contractors from Category 1: General Stream Construction.

UDFCD is not restricting the number of contractors, provided the contractors meet the experience and performance requirements of the appropriate category.

Contractors interested in being considered for this work need to provide a written statement, no longer than four (4) single-sided typed pages, which includes the following information:

1. General information about the contractor and company
2. The work classification, either Category 1: General Stream Construction or Category 2: General Stream Management, the contractor wishes to be considered for based on their qualifications.
3. Information on the personnel that will be working on the projects. At a minimum, information on one superintendent and one foreman, and their experience working on UDFCD sponsored projects or UDFCD sponsored projects, or stream projects completed for a local government within UDFCD boundaries, constructed by the contractor in the past two years that demonstrates their qualifications for the classification(s) for which they want to be considered. Projects where the contractor was a sub-contractor for stream work may also be considered.
 - a. The names of UDFCD staff in Stream Services that are familiar with the project or the project manager for the local government where work was completed must be provided by the contractor for each project listed.
 - b. UDFCD reserves the right to review any and all projects the contractor has constructed for UDFCD over the past two years, including projects that may not have been listed in the SOQ.
5. A labor and equipment rate schedule to be used for time and materials work.
 - a. All equipment to be used on stream projects must be included on this list. Rental equipment can be billed at direct cost plus 15% overhead.
 - b. This rate schedule must be valid for one year and will become a part of the contract documents.
6. A statement acknowledging that the contractor has reviewed the General Contract Documents.

General Contract Documents will be available for review on August 1, 2017 on our website www.udfcd.org at the bottom of the page under **Recent News**.

An information meeting will be held at UDFCD's offices at 2480 W. 26th Avenue, Suite 156B, Denver, CO 80211 on August 16, 2017 at 1:30 p.m. SOQs must be received at UDFCD offices no later than September 12, 2017 by 4:00 p.m., or sent via email to mcorkery@udfcd.org (file size no larger than 10mb).
